Directorate of Distance Education

One Year Advanced Diploma in GIS & REMOTE SENSING LAWS

About the Programme

The mission of the program is to provide a platform for graduates thereby establishing knowledge and understanding of theoretical and practical issues affecting the law relating to GIS and Remote Sensing, enable an appreciation of comparative approaches to national aspects of law & policy relating to GIS and Remote Sensing and provide a unique value added qualification which would help the aspirants to acquire global placements in the aerospace industries. Centre for Aerospace & Defence Laws (CADL) of NALSAR aims at institutionalizing an academic-industry partnership in the domain of GIS and Remote Sensing Laws which makes it first of its kind not only in India but in the entire Asia-Pacific region.

The main objective of the programme is

- To provide advanced level knowledge and skills in specialist area of GIS and Remote Sensing Laws through independent research.
- To improve both research and independent study skills and
- To enhance the learner's ability to develop substantiated critical argument.
